

QEducation is a solution for the management of academic issues at educational institutions that is meant to streamline an entity's operational and administrative processes. This brings along the possibility for the institution to focus on the management, analyses and decision-making in relation to students and teachers.

MAIN MODULES

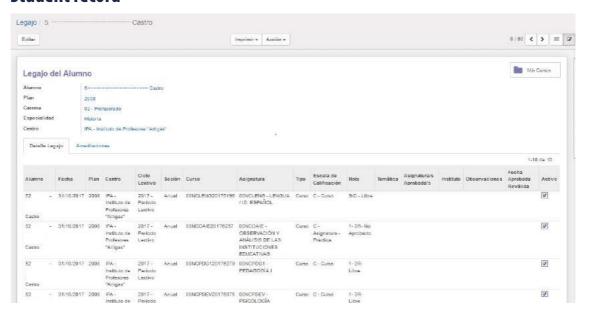

This suite, based on *Odoo* and on world class software-related best practices, may be easily integrated with any ERP and allows:

- Student management, from candidate applications and forms (such as enrolment, registration and course management depending on the specific curricula for the courses of each degree) to the time of graduation.
- Institute records, physical structure and inputs for the implementation of courses.
- Record and management of academic structure (plans, degrees, grading scale, subjects, structure and pre-requisites).
- Management and record of events and school term catalogs (school term, characteristics of classes).
- Course and exam management.
- Management of course teachers and substitutes, and users performing tasks at the institute level. Work distribution and teaching hours.
- Scholarship management and records.
- Students' assessments on teachers and on the institutes they attend.
- Different Reports: student record transcripts, graduation certificates, and reports on bus transportation subsidies available, among others.

Student record
